

The Coracle

St Davids Cullowhee

February 13, 2022

Called to embody God's love by welcoming everyone who enters and by empowering all who stay to make a difference in the world.

New Sound System Up and Running

Here is an explanation of how the new system works with hearing aids by John Haynes of WNC Audio Video:

Inductive Looping is a type of hearing assistance that allows people to use their hearing aids to listen directly to a PA system. This provides a very intelligible listening experience for the user. To listen to the loop, users need to switch their hearing aids from Microphone Mode to T-Coil Mode (or a mixed mode that uses both the microphones and T-Coils). T-Coil is shorthand for Tele-Coil. Most hearing aids have T-Coils, but some audiologists do not activate them by default. If you have hearing aids, you can call your Audiologist to find out if you have T-Coils and whether or not they need to be activated.

New White Board

Your Altar Guild is happy to present our new white board for weekly tasks related to church services. We hope it will be efficient as it is on wheels and thus easily moveable. It is also a bit bigger, and it was time to have something new and a bit more functional. We opted to keep the separate flower chart going as that seems to work well.

Please think about signing up for flowers and other tasks and coffee hour. Your Altar Guild greatly appreciates everyone's participation in our parish life.

With thanks and love,
Faye Jacobson and Judy Robinson

The silver-plated chalice that has been used at St. David's for the past 54 years is now on its way to the Almy company for an estimate on refurbishing it. It shows wear from overzealous polishing over many years and needs repair before it is put back into use.
